THE GREEN ZONE AT THE SAN JOAQUIN COUNTY FAIR

The San Joaquin County Fair, in partnership with Citadel Broadcasting, is turning their largest exhibit hall into a GREEN ZONE. Building #2 will feature demonstrations and businesses that have the potential to improve the valley we live in. From solar panels to composting, there will be practical information and ways for people and business to participate in "greening" their communities. Also included in the GREENZONE and throughout the grounds will be entertainment venues including the Recycle Cycle, Walking Tree Man, and EarthCapades juggling and comedy show.

Celebrating the importance of going green, the San Joaquin County Fair and Citadel Broadcasting present exciting and easy ways of making life better for the valley we live in and the planet we live on. Be sure to make the GREENZONE in Building #2 part of your Fair experience at this year's San Joaquin County Fair.
